## Paul, Leduc

After working in B&W, he studied architecture and became a film technician of the cinema, entering the Higher Institute of Cinematographic Studies in Paris.

As a technician he shot his first professional film (co-production) "The words were at midnight" (1970). Co-directing one of the best-known documentaries made on the construction of the television tower, "The tower: Between of two towers", directed by J. Bédouin (1976), "Paris", the reconstruction of the film and works of the great filmmaker André Bazin. After several years, film photography was one of the leading activity, it is now responsible in "Barbaric" and "Latin Bar".
