Dear Paul,

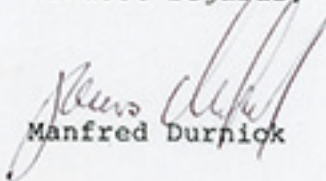

Thank you for your kind letter. I have just returned yesterday from Japan but I would like to answer your letter right away.

Your idea of approaching the Humboldt story by means of Carpentier seems to be exciting and interesting. I can only encourage you to talk to Alberto about it and ask what he thinks of it. If Alberto is willing to provide some financing, then that would be a big help for the film project.

It would also be ideal that you will be coming to Berlin for the film festival. We could then discuss the matter further in detail.

Hoping to hear from you soon.

Kindest regards,

Manfred Durniok
