Dear Mr. Le Ducy

Pancrama Films is an independent financing and production company for by Just Betzer with offices in England, Denmark, and the U.S. Last year, Just Betzer, won an Academy Award for best foreign picture for the film "BABETTE'S FEAST".

I work for Panorama Films in Los Angeles and am working developing projects for the company to produce. We are looking to develop two to three pictures yearly in English.

I was very impressed with your film "FRIDA" which I was fortunate enough to see when it played in Los Angeles. I would love to hear about new projects you may be developing.

I look forward to hearing from you,

Warmest regards,

Leah Pressman Vice President Creative Affairs
